SURVEY LINE FROM BRUDERHEIM NEARING THE BATTLE RIVER

CAMROSE BOOSTERS ON PUBLICITY TOUR

Energetic and Live Bunch of Camrose Boosters Pass through Here with Special Car, Laden with the Resources of that District -- Unique in History of Publicity

WILL SPREAD GOSPEL OF TOWN AND DISTRICT

Tour will Last for Three Weeks and will cost More than \$7,000

Numerous citizens had the opportunity of witnessing and examining the unique plan, adopted by the Camrose Board of Trade, as the east-bound express passed through here on Saturday last. Attached to the regular train was a car, labelled with a huge banner, bearing the inscription, "You are invited to come in and see farm products from Camrose, Alberta."

Many did not need a second invitation to step inside and when they did an interesting and unique sight was revealed. Farm products, consisting of grain samples, vegetables, fruit, etc., were displayed in a very artistic array. Thousands of booklets, pamphlets and other printed matter, concerning Camrose and the district, were piled in tiers a thousand deep. The interior presented a sight that will cause Ontario farmers to gaze and wonder.

Under the direct management of George P. Smith, M.P. P., the party will proceed to Ontario and there start a line of publicity work, never adopted by any western town heretofore. The itinerary is a complete one and includes the smaller as well as the larger centres. The journey will be five thousand miles in length at an approximate cost of \$7,000.

Even the high flowing and otherwise commendable favor extended by the different members of the party at the local station, it can easily be imagined what "hot" stuff will be shot into Ontario farmers by these live boosters. Camrose has every reason to feel proud of their representatives and results will surely follow.

Superintendent Ellis Makes Suggestions in Annual Report

A report of the Commissioner of Dominion Parks for the year ending March 31st, 1911, contains an accurate account of the work done in the National Buffalo Park here. The report as submitted for this park was written by Superintendent Ellis and is so concise in form and composition as to call forth the highest praise from those who recognize the fact that Mr. Ellis is the right man in the right place.

Many suggestions are offered by Mr. Ellis, which, if acted upon by the department, would much improve conditions as they exist in the park. The suggestion to kill off a few bulls would seem perhaps appealing to many, but when it is considered that there are many old animals, which have about reached the limit of a healthy age and the increase of 200 males each year, the proposal is a good one.

It will surprise many to learn that upwards of 2,000 visitors passed through the park gates during the first year, an account of which is ably narrated in Mr. Ellis' report.

Try a Star Want Ad.

President 1912

S. E. JAMES
New President Board of Trade

J. G. and Mrs. Pennington Will Shortly Return Here

A communication of a reliable nature has been received from parties in California, to the effect that J. G. and Mrs. Pennington will return here in March. About five months ago Mr. Pennington mysteriously disappeared and it was thought that he had met foul play. Reports say he has been in Nevada.

BATTLEFORD LINE WILL BE HERE BY FALL

G.T.P. Make Contracts for Hay with Several Farmers

There is every reason to believe that the branch line from Battleford to Wainwright will be started in the early spring and, even though G. T. P. officials are very reticent in their announcements, indications go to show that Wainwright will be reached before next fall.

Already the road is graded to within a few miles of the meridian line, the boundary dividing Saskatchewan from Alberta, and the end of the grading is approximately fifty miles from this terminus.

Farmers, residing north east of Chauvin, state that they have closed contracts with the railway company for hay and other supplies, necessary at time of construction.

C. T. LALLY
Who Retires from the Presidency

S. E. JAMES UNANIMOUSLY ELECTED PRESIDENT OF WAINWRIGHT'S BOARD OF TRADE AT MOST ENTHUSIASTIC MEETING IN HISTORY OF TOWN

Enterprising Manager of Merchants' Bank, a Firm Believer in Wainwright, will Preside over Destinies of Town During 1912 -- Strong and Aggressive Executive of Businessmen

H.C.KING RE-ELECTED AS SECRETARY

It is an easy matter to muster a large gathering to a public meeting, when interest is taken in the particular line of business to be transacted. It is more difficult, however, to summon an appreciable gathering to a meeting in which none are interested. In the past, the latter has apparently proven the case but on Thursday evening last this sentiment had changed and practically every businessman and citizen turned out to the annual election of officers for Wainwright's Board of Trade. It was an enthusiastic affair as it was large.

President Lally, who occupied the chair, gave a brief resume of the work done during the past year. Wainwright's board of trade had been regarded as a necessary evil or in any case a NON-PAYING EXPENSE. He did not agree with this in these days of aggressive advertising. In fact, he considered it the town's best investment. Experts stated that the expenditure of \$1,000 to settle a man in a district was a good investment as it was repaid by the settler in five years. In view

Re-Elected Secretary

H.C.KING
Again Secretary of Board of Trade

of this, he considered the two or three hundred dollars, that the board had used, well spent money.

He strongly advocated paying the secretary. He, himself, had written more than seventy letters during the year and the

secretary had answered no less than four hundred. No businessman could afford to give the office proper attention without serious neglect to his own business.

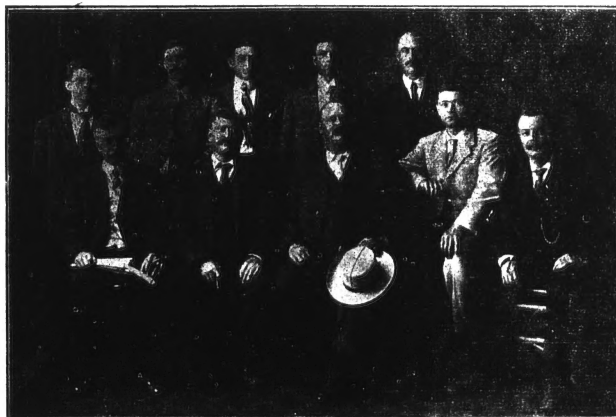

The matter of the distribution of literature was touched on by the president, with the statement that it was necessary to have thousands of pamphlets, booklets and other literature printed during the year. They did not have to be forced on prospect settlers by any means.

Other phases of board of trade work were also dealt with by President Lally and the suggestion made that the board join the Central Alberta Development League. BENEFITS WERE MANY and manifold and could be taken advantage of for \$250.

Secretary King was called upon for his report, which contained an account of the work, accomplished by the board during the past year. Many parties had visited the town and were entertained by the board.

VICTIM OF RAILWAY FATALITY MURMURED, "OH, MY GOD" AND PASSED TO THE GREAT BEYOND

A brief despatch concerning the death of Brakeman James Kennedy, which was received from Scott as the Star was going to press last week, proved all too true, the remains of the unfortunate young man reaching here the following day, en route to Edmonton, where interment was made.

Particulars of the tragic affair were accurately chronicled through the columns of the

Scott Herald, and in part as he was in the car, Kennedy uncoupled the engine and after it had gone by the switch, stepped off the tank, and when seen next was under the car wheels. He had apparently stepped in front of the car and fell, the four wheels on the one side of the car passing over his body and practically severing it in two about the middle. Dr. Cooper was

on the car operating the hand

Vice-Pres. Board of Trade

Wainwright's Fall Fair to be Held on September 5

In the official list of fairs, to be held in the province this year, Wainwright is in Circuit No. 4, together with other centres on the G.T.P. The date of show is September 5th. Edgerton will observe Sept. 3; Irma October 3; and Chauvin, Oct. 5. Bear these dates in mind. Start NOW and PREPARE.

ENGINEERS FORGE AHEAD WITH NEW LINE

Line from Bruderheim Being Surveyed South

Survey parties, running the first preliminary line from Vermilion to Wainwright on the Bruderheim-Medicine Hat branch of the C.N.R. are now camped at the Grizzly Bear Coulee and South of Vermilion about eight miles. A suitable crossing is being looked for and some difficulty is being encountered. The engineer in charge states that he will undoubtedly find a point, where good crossing will be afforded at considerably less cost than was at first anticipated.

Farmers, residing in these northern sections are very enthusiastic and have already raised the price of their farms anywhere from two to ten dollars per acre.

T. G. COOK
Retiring Vice-President

MEMBERS ATTENTIVE TO THEIR DUTIES

Dairies Delivering Milk to the Town will Undergo Scrutiny

A complete reorganization has been made of the Board of Health and a timely start has been made by that body towards better health and public safety in the town limits. Action was taken only after much agitation and decisive steps on the part of the Health Committee of the town council, the Chairman of which is C. M. Snyder.

The newly formed board was constituted one day last week and since then, no complaints have been heard as to the non-fulfillment of duty, connected with that body. Dr. Watson was selected as Health Officer, with J. H. Dawson as chairman. The other members of the board are H. C. King and H. Y. Pawling and S. J. Covey.

Action has started in many respects and a general cleanup of the town commenced. The different cess pools have been inspected, although that at the Park Hotel is the only one in which final and decisive inspection has been made. Samples of water from this hotel and from the Chinese Laundry were forwarded to Dr. Beville of Edmonton by Chairman Dawson and advice received that the former was at present unfit for use. He advised a cleanup of the surroundings, which has been done since that time.

The inspection, made at the Park Hotel, was seen to by Chairman Dawson and John Berrie, the latter being an expert concrete man. The services of Mr. Berrie were obtained in order to determine on certain alleged leakage from the cess pool of the hotel. The receptacle was ordered disinfected and there is every probability of it being permanently closed. At present, it is nailed up and is not being used. Other disinfection has taken place about the premises.

All water in the hotels, school and laundries has been ordered sterilized, according to a prescription appearing in this issue. The medical health officer has taken the matter of cess pool inspection in hand and orders have been given to have that at the Wainwright Hotel, the Merchants Bank and the old Logan property ready for inspection forthwith.

The chairman and Medical Health Officer Dr. Watson have been selected to inspect the different dairies, supplying the town with milk and all matters, in connection with public health must meet with their approval.

"ONE AND ALL WILL BE USED ALIKE" SAYS CHAIR. DAWSON

"I don't care what people say, the new Board of Health of which I am chairman intends to see that the health ordinances are enforced," said J. H. Dawson yesterday. "If the town wants men, who will not perform their duties, they'll have to appoint others than are now on the board. It makes no difference who suffers, no distinction will be made. Public health is an important matter."

NORMAN E. COOK,

Manager and Editor

WAINWRIGHT, ALTA., WEDNESDAY, FEBRUARY 28, 1912

HALF the battle has been won. A strong aggregation of officers and an equally competent executive have selected to sit at the Board of Trade and preside over the destinies of Wainwright during 1912.

At no election of this kind in previous years has such pronounced enthusiasm prevailed at a meeting. Practically every **BOARD OF TRADE** businessman was in attendance and **OFFICERS FOR 1912** furthermore, showed intense interest in matters of vital importance to both town and surrounding community.

In the choice of officers, the town has every reason to feel that the best foot will ever be advanced in the interests of both municipality and community. The progress of the town will doubtless be ably superintended; its needs and requirements will be sincerely investigated and considered as matters of foremost importance. Entering an era of extensive railway development, marked expansion in industrial pursuits and the realization of substantial growth along many lines, important and responsible duties have thus been entrusted to the board as a whole. Under the efficient control of a capable president, who firmly believes that Wainwright is one of the most foremost of western towns, there is ample reason for believing that a good work will be accomplished during the year. At any rate, much is expected from the president and his new aggregation.

Responsibilities of no small moment now rest on the shoulders of the new board. They cannot be entirely borne by the officers and executive, neither can they be efficiently upheld. Hearty co-operation and support must be offered and offered willingly by the members as a whole. Each and every citizen can play his particular part. The farmers of the community can lend their assistance. Every taxpayer should unite in harmony and work in sympathy with this important body.

Wainwright possesses the right mettle and if the town is destined to become the important centre that is expected, then each and every citizen cannot start on a better highway to ultimate success than by beginning right now to gird up his loins, place a shoulder to the wheel of real progress and with a common object in view, push Wainwright into the foreground and finally establish the community to the topmost rung of the ladder, a position of which it is justly deserving.

0 0 0

AGITATION, respecting typhoid fever and other infectious diseases, has been strongly in evidence during the past two weeks and has reached that limit, where certain communities demand through the columns of this publication by parties who claim that they are entitled to safety and protection from those who in many cases are extremely lax and negligent.

It seems a prevalent opinion that the old Board of Health did not exercise its powers to a sufficient extent as to prevent **PREVENTION** IS the break that has occurred. In fact, **ALWAYS BETTER** work along this line has been neglected **THAN THE CURE** during the past year and the allegation cannot be denied. Time has now arrived when action is demanded, and in face of this, it is gratifying to note that decisive steps have been taken by the new Board of Health, following the complete re-organization by the health committee of the municipal council.

There is cause for serious alarm in the fact that several typhoid cases have recently developed, one of which has already proven fatal. When it is considered that infections of such a nature are uncommon at this time of the year, the alarm naturally grows with the apparent cause for it. Mild weather has doubtless been responsible for the outbreaks, following the melting of the snow from refuse that has collected during the winter months. What then will be the result when spring sets in and especially in back yards, from which refuse has not been removed for months? Certainly a calamity, unless such matter is immediately removed.

The action, already taken by the new Board of Health, is worthy of much commendation. Precaution is advocated as a preventative. Water purification has been ordered and other steps, necessary to ensure health and public safety.

Further than this, the residents, themselves, are in many cases to blame and are extremely lax in the removal of refuse that sooner or later decomposes and scatters the deadly microbes and bacteria to the four winds. There is then no reason why those who are exercising precaution should be made suffer with the negligent and they will undoubtedly continue to, until such a time as the town is given a thorough cleaning, which work has already been started by the health department of the municipal council. Let us hope that the cleanup will continue and further outbreaks be eliminated. Precaution, attention to the rules of health, and keen observation of the cause and remedy in such matters should prevail.

As a rule, farmers endeavour to accomplish the most good with the smallest amount of capital. This is alright when it can be properly managed but with many, who are without the latter and haven't the ambition to do any good to themselves even, the situation presents a different hue. Wainwright farmers have both.

During the past week, the **STAR** has been in receipt of a letter from a well-known local man, with instructions as to publication. For various reasons, we must decline to publish this letter. It is far too bitter an attack to gain a place in our columns. In a just and equitable cause, our columns are open to public comment.

The announcement that two branch lines are now being pushed toward Wainwright will strike the majority of Wainwrighters in about the right spot.

SHOULD BE DISREGARDED

Sometime ago, many local businessmen and several farmers, residing in the immediate vicinity of the town, received notice of action by the Winnipeg Credit Men's Association, respecting the temporary altering of certain clauses in the Manitoba grain act. These communications were accompanied by petition blanks, with the suggestion that same be filled in and forwarded to the association.

It now comes to light that such a proposition is in the disguised form of a scheme to flim flam the farmers and take advantage of them, when the country is confronted by an unprecedented car shortage. It asks that these clauses be withdrawn so that prompt shipment of all grain can be made to foreign points, thus providing for the procuring of cars. The advantage claimed is that the farmer will then be in a position to ship his grain and receive cash with which to pay his bills. No provision, however, is made in the petition to recall these clauses at any future date, when it might be very advantageous to every farmer to have them in force.

Even in the light of such a proposal, emanating from such an association, it might have been conjectured long since that they will look after their own best interests first. These clauses in the grain act have assisted the farmers on previous occasions and if their exclusion would have meant anything to them, such an agitation would have started from the agriculturalists themselves.

Several farmers in this community have taken to the suggestion and have already started the circulation of such petitions. It would be well, however, for them to bear in mind that they should look into what they are doing before carrying the matter to a limit, from which it would be impossible to retract. If the proposition were not suspended, it would not meet with the stern criticism and condemnation that it is receiving from those who, it is claimed, it will benefit. The scheme much resembles the act, which started the expression, "Every man for himself and the devil for us all."

Those who have grain for sale or those who desire seed for the season's planting, should communicate with or see Mr. D. W. Stouffer, secretary of the U. F. A., who is endeavoring to hold all the good seed in the district. Help along a good cause.

"Eastern Canada has its own car shortage" is the report from the Canadian metropolis. The shortage is not so dramatically evident as in the West, yet much annoyance has resulted. It will doubtless serve as a means to show the people of the East what the farmers of this part of Canada are compelled to submit to.

No mention has been made through these columns to date of certain ill feeling that has existed in the town. At this time, when the many upstarts have about subsided, it might be well to suggest that parties, who have been engaged in strife, get down to business again, after a recreation, which has perhaps relieved a few but disgusted many.

NEW GRAIN BOARD

Appointed, with Headquarters at Calgary, where inspection will be made.

A grain board will shortly be established at Calgary, following the commencement of a very large amount of grain being shipped from that point. The board will consist of six members, who will inspect all wheat and other grain, passing through that city for the East. Members of this board will be selected by the Calgary Board of Trade, but must have their qualifications approved by the commissioners.

MONTREAL JUDGE SAYS CIVIL LAWS OF CANADA ARE MARRIAGE LAWS

Judgment was given in the famous Herbert Cloutier marriage case last week in Montreal courts by Justice Charbonneau, who maintained that any officer, authorized to perform marriages can marry any two persons, who observe the ordinary formalities in obtaining a marriage license, no matter what their religion may be. The outcome is looked upon as a body blow to the No Temere decree. It is furthermore a triumph of the civil laws of the country over those of the church. The case will likely be taken to the higher courts for ultimate decision in order to avoid future complications and strife that are liable to arise.

Frank Back is sincere in his efforts to gain for Wainwright a modern flour mill. He leaves in the spring for his former home in the States, where he will reside thereafter. Before going, however, he desires to see the farmers get fair play. His action in this regard is a very commendable one and is considered so by all.

M. Mecklenburg, the celebrated and experienced eye specialist, who has gained a name for himself through these parts of the province, will again be in Wainwright on Saturday, March 9th, at the Wainwright Hotel. Irma, March 8th, Edgerton, March 11th, Chauvin, March 12th.

Hardly a day passes that does not bring exchange copies of foreign newspapers to the Star office, with writups of the progress being made at Wainwright. Prominent magazines, periodicals of all kinds and numerous newspapers with large circulations have given the "Buffalo Town" a great deal of prominence during the past of 1912 already passed. There is every reason to believe that the town is looked upon with no little favor from the outside world.

Do you know that more real danger lurks in a common cold than in any other of the minor ailments? The safe way is to take Chamberlain's Cough Remedy; a thoroughly reliable preparation, and rid yourself of the cold as quickly as possible. This remedy is for sale by all dealers.

FOR SALE—400 bushel Red Fife wheat, cleaned, for seed. Government certification test of 100% in 1912. Price \$1.00. B. H. Wiley, N. E. 2 40 2, 11 miles east Farmer's bridge, south of the Fair River.

FORT FRASER
The Hub of T. C. on the G. T. P.

Is "to-day the shining" glittering, magnetic British Columbia, the great North-west. The eyes of the whole continent are fixed upon it. It is talked of from ocean to ocean and is destined to attract the attention of the world.

FORT FRASER is a new townsite on the main line of the Grand Trunk Pacific Railway (Trans-continent) in the centre of over nine million acres of rich agricultural land in the heart of British Columbia. Canada's big Pacific Coast province adjacent to the well-known Omineca and Finlay River Mining districts, as well as the big coal fields west of the Bulkley Valley.

FORT FRASER is located at the east end of Fraser, Decker and Burn's Lakes, at the confluence of the upper and lower Nechako Rivers, commanding over 1,000 miles of navigable waterway; a natural lake, rail and river centre, affording an easy grade for railroad building in every direction.

FORT FRASER and surrounding country has amply but not too much rainfall; the weather is warm in summer and bracing in winter; good pure water is abundant.

FORT FRASER townsite is a beauty spot, surrounded by water on three sides; it is high and level, rising gently from about ten to thirty feet above the river.

FORT FRASER has back of it, good, clean men who stand high financially and socially. British Columbia Government own over forty entire blocks scattered all over the townsite, and the title to this property is guaranteed by the Government.

Twin-City Gas Tractors

These are Built in Two Sizes "40 H. P." and "25 H. P." on Drawbar

THE TWIN-CITY "FORTY"

is built by the Minneapolis Steel and Machinery Co., who are universally conceded to be the leading Gas Engines Builders in the American Continent.

The Twin-City "Forty" is an all Steel Tractor that is actually guaranteed to do the work of 40 horses in the field or on the road. It is the most powerful, most durable, most substantially built Tractor that has been produced and has given absolute satisfaction in the field everywhere.

The Twin-City "Forty" to-day stands alone in the Traction field, representing the highest development of machine construction as applied to Traction Engines, a machine that has proven itself to be the "Monarch of the Field" wherever it has gone.

The Twin-City "Forty" contains no element of uncertainty. It embodies no experiments. Every part has been tried in the hardest kind of work. Every principle in its construction has gone through a time testing ordeal of hard service.

The Twin-City "Twenty-five" is a smaller Tractor embodying all the characteristics of the "Forty". It is light, powerful, very simple and easy to handle.

A TWIN-CITY FORTY has already arrived and any one desirous of seeing it should call and have its demonstration to its superior features.

THE TWIN-CITY "FORTY"

Binds More Sheaves with Less Twine

Plymouth Binder Twine is made right. It works smoothly, cleaves, and the last of the ball feeds as freely as the first. No knots or breaks. Fifty per cent stronger than the twine of any machine actually requires.

PLEYMOETH Binder Twine

It used more than any other twine because it is known to be the best. Made by the oldest rope establishment in the United States, where quality and honesty are again into every ball of twine. Farmers who insist on seeing the wheat-shed tag on every ball of twine save money and avoid harvest delays.

P. DEWAR WAINWRIGHT

DE LAVAL Cream Separators
THE WORLD'S STANDARD

USED EXCLUSIVELY BY 98 PER CENT OF WORLD'S CREAMERIES

Ten years ago there were a dozen different makes of creaming or factory separators in use. Today over 98 per cent of the world's creameries use De Laval separators exclusively. When it comes to buying a separator why not profit by the experience of the creamery man, which qualifies him to advise you correctly. He knows which separator will give you the best service and be the most economical for you to buy. That's why 98 per cent of the world's creameries use this De Laval exclusively. There can be no better recommendation for the De Laval than the fact that the men who make the separation of milk a business use the De Laval to the practical exclusion of all other makes. They know from experience.

Easiest to turn, easiest to wash, skims the cleanest, lasts the longest. Price \$65 and \$75 on terms. SOONER OR LATER YOU WILL BUY A DE LAVAL

SMALL BROS.

AUDITORIUM BLOCK 2nd Ave. West

AS SEEN FROM THE STAR OBSERVATORY

The Board of Health considers that the safety of the community depends on a large extent upon prevention and the ordinary observance of the laws and rules of health. That's correct and the public expect them to continue their work in the same manner in which it has been started.

Sometime ago, the promoters of the sub-division, known as South Wainwright, gave the assurance that a flour mill would be erected on their property and that the wheels would be turning before the end of 1912. Now it transpires that they wish to give a free bite only. Is this consistency?

Concentrated effort must be attained before noticeable results will follow. Would it not be well to suggest that farmers and business men, citizens and workmen, unite in endeavor and effort to build up a community beyond parallel? Union can accomplish much but one member of a bundle of sticks is easily broken.

Unsanitary privies are said to be the cause of much of the sickness now prevailing in the town. The town council has lauded the mayor over to the board of health and the medical health officer. Specifications are being prepared for out-houses and, old privies must be done away and the specifications lived up to.

The fatality, which occurred at Scott last week, when a local brakeman lost his life, should serve as a lesson to other trainmen, who are compelled at times to make flying shunts. It is understood that many practice carelessness. But life is too valuable for it and no job is worth taking too many chances with.

The Winnipeg Free Press has devoted a page to western farmers, where they may give their reasons for and against mixed farming. Letters must not exceed one hundred words and should be addressed to Editor Western Farm, Manitoba Free Press. These columns will constitute a forum that every mixed farming agitator should take an interest in.

If ratepayers permit themselves to suffer from the negligence and carelessness of a few, in respect to sanitary conditions, then they are as much to blame as those whom they accuse. To be well and keep well is a privilege, granted to few, and it is generally a privilege that is enjoyed by those who look after themselves and their interests.

It is "tuff" luck to be compelled this week, through no fault of the STAR, to publish an ad. from the T. Eaton Co. advertising farm implements. In another light, it is a "good one" on the paper, for, since its inception, the large mail order houses have been given the cold shoulder and to local merchants, only justly so.

It has been suggested that the new officers and executive of the board of trade be nicknamed the "boardless eight". Seven of the eight can boast of few more years than one score and ten. But the cry in Wainwright has always been, "Get the young blood interested". They are.

The bye-election in South Renfrew last week was held about fifteen hundred miles from Wainwright; yet it might be ventured that as much interest in the outcome was displayed here as elsewhere in Canada. Graham had many sympathizers, in view of the alleged promise by the Conservatives that no election would be held.

Mrs. A. Schofield, who was stricken down with illness last week, is not improved since that time and is now suffering from a mild case of typhoid. Her friends look for a speedy recovery.

Nimrod tells us that the flower of a glorious spring is now in the bud and that seed-time is near at hand. Still many farmers haven't even thought from what source they will get their seed grain; have not made one preparation for an early harvest. A reference to Matthew 24-8, should suffice.

Camrose is to be congratulated on possessing such a live-wire, energetic and up-to-date bunch of western boosters. The special car passing through here last week, containing exhibits from that district does much credit to their enterprise. It will be noticed in the East. The West has noted it already.

Persistent advertising and an occasional circular letter, distributed among prospect customers, is the only means of meeting competition from the large mail order houses of the country. Clear, concise statements in regard to prices and quotations will invariably work wonders and be sufficient inducement for home patronizing.

The program of work to be carried out by the new Board of Trade is a comprehensive one and should meet with the hearty support of every citizen. Continual agitation will accomplish much. At any rate, it will cause uneasiness to those from whom action is expected and bring a feeling of satisfaction to the agitators.

To raise a few vegetables, keep a small herd of cows, brood half a dozen sows, acquire a flock of hens and other poultry is the way to start mixed farming that will ultimately surprise every agriculturalist. An occasional permit it, the stock can be increased and until the value of mixed farming is convincingly proved.

Farmers: Are you aware that Wainwright's first fall fair is slated for the early part of September? Seven months distant, isn't it? Preparation is the key-note to success. Summer will soon be here, autumn will follow and then the agricultural fair. Begin now and make our first fair an unprecedented success in Alberta. We can if we will.

Several farmers advertise the sale of seed-grain in this issue and it would be well for every grain-grower to inspect it before sending away for seed that may be of inferior quality. In the first place, the freight is saved and other needless expense. Every farmer should endeavor to keep his money in circulation at home wherever feasible.

At this late hour, there is absolutely no reason to withhold the fact that sanitation in the town presents cause for serious consideration. It is being wisely taken up by the newly-appointed Board of Health. Let us help them in their work and keep down as much as possible outbreaks that are liable to arise.

The Buffalo Park is considered a good asset to Wainwright and no more convincing evidence is at hand than the report of Superintendent Ellis, copies of which are now in circulation. Time, and time alone, will convince us that we were very fortunate in having this national reserve located here.

Recent intimations go to show that R. B. Bennett, M. P. for Calgary, will leave Dominion politics and seek fame in the large arena of British affairs. After such an expression of confidence by the people of Calgary, and his promise that he would represent the interests of the West, Mr. Bennett should remain where he is and fight for Western recognition and rights, even though he has higher aspirations.

Richard McKay, accompanied by his wife and daughter, went to Edmonton yesterday and points west, where they will visit friends and relatives for a week or more.

BOARD OF TRADE
ELECT OFFICERS
FOR 1912

Continued from Page 1

10,000 PAMPHLETS had been distributed throughout Canada, United States and Great Britain. 400 letters were received and answered. 10 sections of land had been sold at an average of \$16.50 per acre. 223 homestead entries had been made, many of which were promulgated through the board of trade. Farm hands had been located and newcomers placed at work. Road improvements had been taken up and better roads secured, leading into town.

LACK OF FUNDS. had proved a great handicap and at least \$1,000 would be needed with which to carry on publicity work during 1912.

Previous to the election of officers, brief addresses were delivered by several active members of the board, including J. H. Dawson, Mayor, Pawling, A. E. Mills and others, all of whom endorsed what had been said by both the president and secretary. The Mayor was under the impression that \$1,000 would be granted by the council providing satisfactory proof was shown that it would be wisely and beneficially expended.

The election of officers was then proceeded with, and the following elected unanimously and without opposition: President, S. E. James; Vice-Pres. N. E. Cook; Secretary, H. C. King; EXECUTIVE—A. E. Mills, W. Small, R. B. Davison, C. T. Lally and E. N. C. Tanguay. Short addresses were given by the newly elected officers and the meeting brought to a successful ending.

MURMURED 'OH MY GOD'
AND PASSED TO THE
GREAT BEYOND

Continued from Page 1

hurriedly sent for and reached the scene within a few minutes. He found the injured man still breathing, though his pulse had failed, and immediately had him removed to the station, but before reaching there he had expired. All that the deceased was heard to say after the accident happened was, "Oh, My God."

The sad news was broken to Mrs. Kennedy by Rev. Thos. Philips and W. J. McPhee, who performed a hard duty. The distracted wife left home on the afternoon train for Edmonton, where her people reside and where interment was later made. Under the overwhelming circumstances, Mrs. Kennedy bore up well, yet it can easily be imagined the shock she must have received.

The late Mr. Kennedy was a brotherhood man and has been running out of Wainwright for the past three months. Last summer, he sustained injury in practically the same manner as this fatality and was confined to the Edmonton hospital for months. By all who knew him, he was considered extremely popular and although of a reticent disposition was a warm friend to many.

Tenderest sympathy goes out to Mrs. Kennedy in her sad bereavement from her numerous friends in and about the town. A boy, five years of age, survives him and his mother, who, it is understood, resides in Texas.

After such a strenuous week, as was enjoyed previous to Saturday last, an apparent change has taken place among those who were privileged to take advantage of such amusements and pastime. Even with this reaction, Wainwright citizens can always be depended upon to rise to any occasion.

L. P. HUSSEY TAKES
OBJECTION TO
ACTION

Much resentment has been shown by Mr. L. P. Hussey, proprietor of the Park Hotel, to the steps taken by the new Board of Health and their action in demanding the cess pool at his premises, permanently closed and filled in with gravel and other material. The grounds for Mr. Hussey's resentment rests on a written report as to the present condition of the cess pool. The report is made by L. Kauffman, by whom the cess pool was repaired on the 18th day of August last.

The report goes on to state that faulty material had given way and better cement was put on. The wall was about 10 inches in thickness and was repaired to within a foot of the top. Standard mixtures of cement and sand were applied and the wall was finished with a coating of clear cement. After the work was finished he considered the wall perfectly water tight. On February 23rd he was again called upon by Mr. Hussey to inspect the cess pool and found the wall intact except for two or three places, where the cement had been broken by some instrument and probably from sounding by a hammer. Another crack was found near the top of the wall. In his opinion, the cess pool had been allowed to overflow and as a result had damaged the wall and caused it to leak. The above is the contents of Mr. Kauffman's report and on which Mr. Hussey takes his grounds for complaint.

Local News

Following the examination of a sample of water from the well, adjoining the Park Hotel, the well has been closed up and all connection cut off from the hotel. The premises have been thoroughly disinfected by the health authorities.

J. F. Wilding, who has conducted a boot and shoe store on Second Avenue for sometime past, will shortly leave for England, where he hopes to regain his health. For sometime past, Mr. Wilding has been in ailing health and while in England will probably undergo an operation. His wife, who has been in Wainwright since last summer, will accompany him.

Norman Culp, the local Sub-Agent for Dominion Lands, who has been visiting in Seattle for sometime past and who accompanied the party of excursionists to the Coast, returned here on Monday, after a most enjoyable trip.

Mr. V. E. Graham was a visitor to Edmonton last week with his little girl, Mildred, who for sometime past has been suffering from her eyes. Specialists were consulted, with the result that she is much improved. Her sight is in no way impaired.

Invitations are now out, announcing the third annual "At Home" of the local Odd Fellows to be held in the Auditorium on the evening of March 8th. The program will be carried out in two parts, the first being in the form of an entertainment, while the latter will be devoted to dancing.

M. Meeklenburg, A. M., the only University graduate eye specialist in Alberta, will again be at Wainwright Hotel, Wainwright, Saturday March 9th, at Edmonton March 11, Chas. March 12. Satisfaction guaranteed. Charges moderate.

Mr. P. W. Deveson, who has been journeying on a vacation trip through Washington and other Western American states, returned here on Saturday. Mr. Deveson states that he had a splendid trip but that Wainwright and its surroundings were good enough for him.

IS ONLY NATURAL
THAT CRITICISM
FOLLOW

Many will doubtless take strong objection to an advertisement appearing in this issue over the name of T. Eaton & Co., and the objection will be naturally taken. This is no fault of the Star and is explained by the fact that this page was printed in Winnipeg by the Toronto Type Foundry, from whom our ready prints are secured. Steps will be taken to see that future advertisements of this kind do not appear.

Mr. H. V. Fieldhouse, who visited the Grand Lodge of the Independent Order of Odd Fellows at the recent convention at Lethbridge, returned here on Sunday. Mr. Fieldhouse, who is a Past Grand in this fraternal society, spoke in glowing terms of the good work being carried on all over the province by this order.
